

# CTV LIFTS EN81.72 Y EN81.71 CAT II

CTV is designing and manufacturing lifts fully compliant with the european standards **EN81.72** (fire fighters lifts) and **EN81.71 CAT II** (vandal resistant lifts). Compliance with both is available.

Lift car to comply with **EN81.72:**

- Ceiling trap door for evacuation.
- Interior evacuation ladder.
- Exterior evacuation ladder.
- IP-X3 rated COP and car electrical installation.
- And more.

CEILING TRAP DOOR

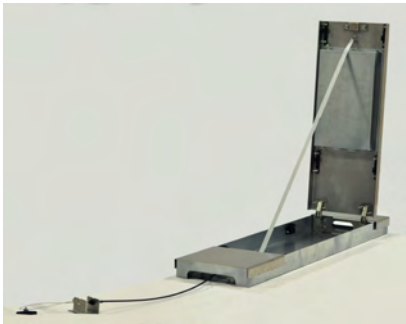

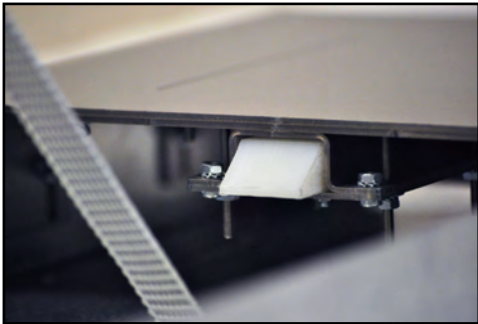

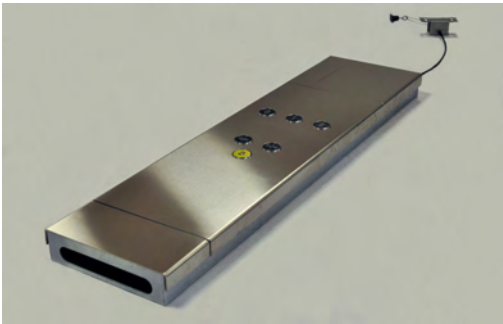

INTERIOR EVACUATION LADDER

EXTERIOR EVACUATION LADDER

- CTV designs and manufactures special COP to comply with EN81.72 and EN81.71 CAT II

## CAR OPERATING PANELS

Lift car to comply with **EN81.71 CAT II:**

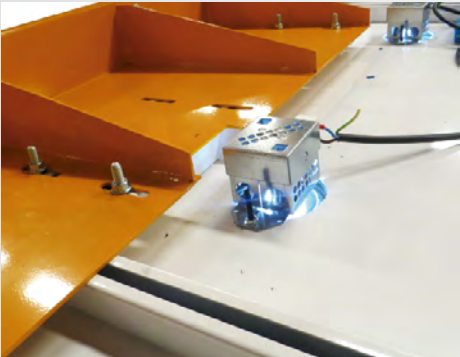

- Special COP designed to be opened from the roof of the car.
- Ventilation designed to prevent objects passing through and protruding into the shaft.
- Vandal resistant car lighting.
- Direct ceiling.
- Reinforced car panels.

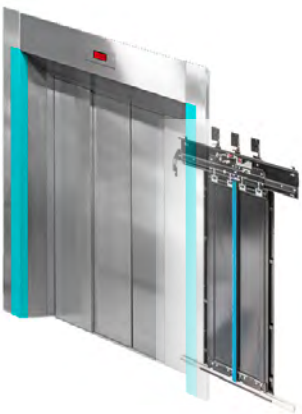

COP ASSEMBLY

HIDDEN VENTILATION

CAR LIGHTING

**EN81.72 and EN81.71** compliant doors:  
CTV has ample knowledge of the requirements to comply to these standards, we currently collaborate with providers of the highest standards to supply adequate options.
